

ROOFMATES™ SHINGLESAW™

ABSTRACT OF THE DISCLOSURE

SHINGLESAW™ is a pneumatically powered miniaturized reciprocating or circular saw designed especially for roofing applications. SHINGLESAW™ may also be powered by rechargeable battery packs or the like. The reciprocating version of SHINGLESAW™ is the size and shape of a Prior Art razor knife, but is powered and provided with a depth gauge to prevent cutting through roofing underlayment or the like.
